Practical No. VI

Core JavaScript Concepts for MERN

Roll No.: 52	Name: Divyanjali yadav
Class: TYIT	Batch:
Date of Assignment: 09/09/2026	Date/Time of Submission: 09/09/2026

6. Node.js and Express Fundamentals

a. Install Express and create a simple server.

```
PS C:\Users\mvlui\Desktop\Express practical> npm init -y
Wrote to C:\Users\mvlui\Desktop\Express practical\package.json:

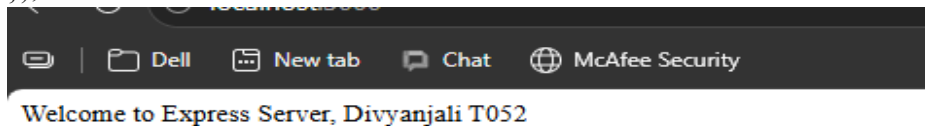

{
  "name": "express-practical",
  "version": "1.0.0",
  "description": "",
  "main": "index.js",
  "scripts": {
    "test": "echo \"Error: no test specified\" && exit 1"
  },
  "keywords": [],
  "author": "",
  "license": "ISC",
  "type": "commonjs"
}

PS C:\Users\mvlui\Desktop\Express practical> npm install express
added 68 packages, and audited 69 packages in 5s
27 packages are looking for funding
run 'npm fund' for details
found 0 vulnerabilities

PS C:\Users\mvlui\Desktop\Express practical> node server.js
Server is running on http://localhost:3000
```

b. Display a message on the browser using the server response.

```
Code:const express = require("express");
const app = express();
const PORT = 3000;
app.get("/", (req, res) => {
  res.send("Welcome to Express Server");
});
app.listen(PORT, () => {
  console.log(`Server is running on http://localhost:${PORT}`);
});
```

c. Create different routes in Express.

```
Code:const express = require("express");
const app = express();
const PORT = 3000;
// Home Route
app.get("/", (req, res) => {
  res.send(`
<h1>MVLU College Management Server</h1>
<p>Welcome to our college website.</p>
<h2>Divyanjali T052</h2>
```

```
`);  
});  
// Students Route  
app.get("/students", (req, res) => {  
  res.send(`  
    <h1>Student List</h1>  
    <ul>  
      <li>Divyanjali yadav</li>  
      <li>Priya Patil</li>  
      <li>Amit Joshi</li>  
      <li>Neha Bhosale</li>  
    </ul>  
  `);  
});  
// Faculty Route  
app.get("/faculty", (req, res) => {  
  res.send(`  
    <h1>Faculty List</h1>  
    <ul>  
      <li>Sneha Gokarnkar - Information Technology</li>  
      <li>Rohini Bhosale - Information Technology</li>  
      <li>Sumit Tripathi - Information Technology</li>  
      <li>Chetana Tanavade - Information Technology</li>  
    </ul>  
  `);  
});  
// Courses Route  
app.get("/courses", (req, res) => {  
  res.send(`  
    <h1>Available Courses</h1>  
    <ul>  
      <li>B.Sc. Information Technology</li>  
      <li>B.Sc. Computer Science</li>  
      <li>B.Sc. Biotechnology</li>  
      <li>B.A. Multimedia and Mass Communication</li>  
    </ul>  
  `);  
});  
// Contact Route  
app.get("/contact", (req, res) => {  
  res.send(`  
    <h1>Contact Us</h1>  
    <p>Email: info@mvlucollege.in</p>  
    <p>Phone: 9876543210</p>
```

<p>Address: Andheri, Mumbai</p>

`);

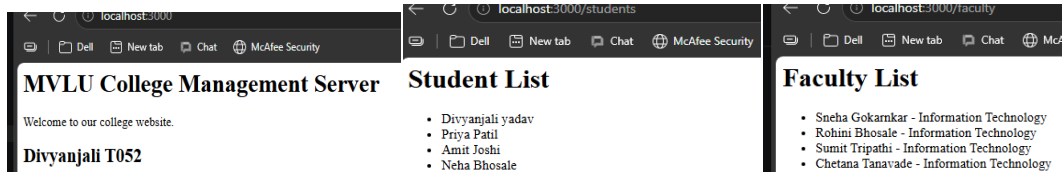

});

// Start Server

app.listen(PORT, () => {

console.log(`Server is running on http://localhost:\${PORT}`);

});

d. Send a JSON response from the server.

Code: const express = require("express");

const app = express();

const PORT = 3000;

app.get("/", (req, res) => {

res.send("Welcome to MVLU College Management Server");

});

app.get("/students", (req, res) => {

const students = [

{

id: 1,

name: "Rahul Sharma",

course: "B.Sc. IT",

marks: 85

},

{

id: 2,

name: "Priya Patil",

course: "B.Sc. IT",

marks: 92

},

{

id: 3,

name: "Amit Joshi",

course: "B.Sc. CS",

marks: 78

}

];

res.json(students);

});

app.listen(PORT, () => {

console.log(`Server is running on http://localhost:\${PORT}`);

});

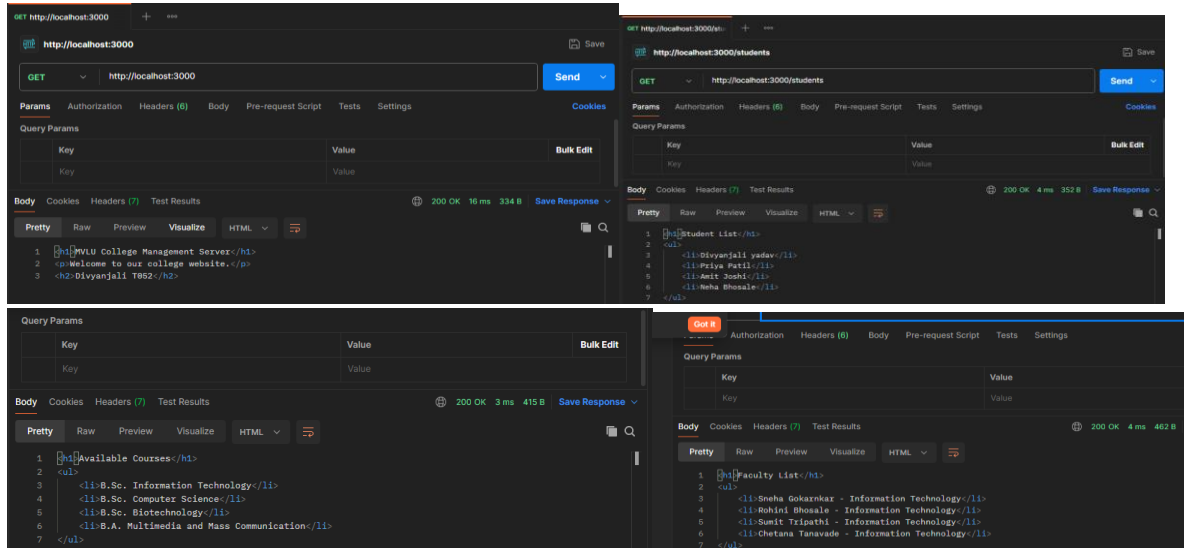

```

[
  {
    "id": 1,
    "name": "Rahul Sharma",
    "course": "B.Sc. IT",
    "marks": 85
  },
  {
    "id": 2,
    "name": "Priya Patil",
    "course": "B.Sc. IT",
    "marks": 92
  },
  {
    "id": 3,
    "name": "Amit Joshi",
    "course": "B.Sc. CS",
    "marks": 78
  }
]

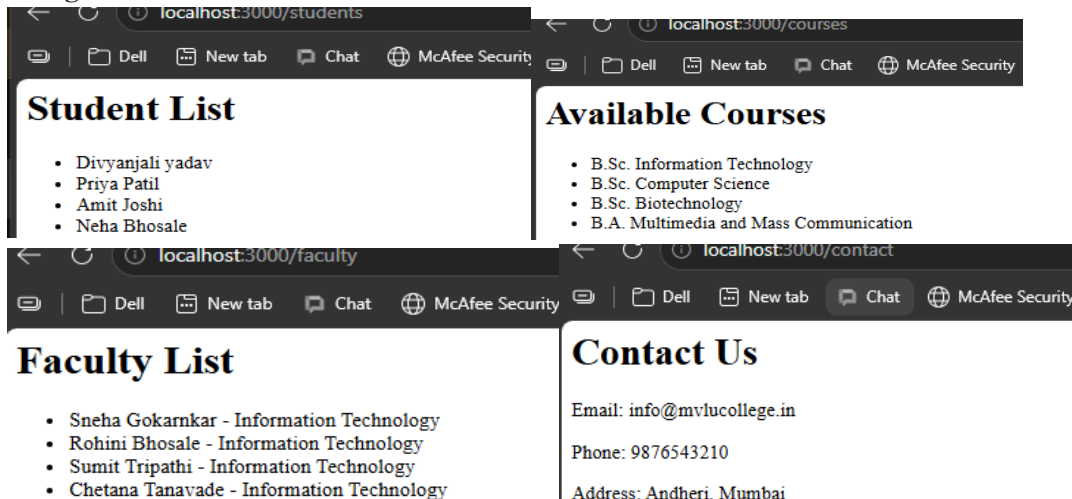

```

e. Test routes using browser or Postman.

Using Postman

Using browser

f. Run the server and observe the output in the console.

```

PS C:\Users\mvlui\Desktop\Express practical> node server.js
Server is running on http://localhost:3000

```
